Waste management regulations are strictly enforced and failure to comply for any reason will result in citations. **Initials:** _____

Denali National Park and Preserve recognizes that a certain number of park visitors each year will become ill, injured, or incapacitated in some way. It is the policy of Denali National Park and Preserve to assist those in need, when, in the opinion of the park personnel apprised of the situation, it is necessary, appropriate, within the reasonable skill and technical capability of park personnel, and provides searchers and rescuers with a reasonable margin of safety.

Search and Rescue operations are conducted on a discretionary basis. The level and exigency of the response is determined by field personnel based on their evaluation of the situation. Rescue is not automatic. Denali National Park and Preserve expects park users to exhibit a degree of self-reliance and responsibility for their own safety commensurate with the degree of difficulty of the activities they undertake.

In the event you are rescued (aerial evacuation or ground rescue) while climbing in Denali National Park and Preserve, you may be obligated to pay for air or ground ambulance costs. If you are rescued your permit will be voided.

With my signature below, I certify that the information I provided on this registration form is true and correct to the best of my knowledge. I have read, understand and will fully comply with all regulations and that failure to do so will result in citations.
